

# Vegetation Management

EIP014

28 February 2023

## Background

- Trees and other vegetation in proximity to power lines can cause issues with safety and reliability of the network
- Periodic inspection and visual assessment currently used
- Challenge in work planning, wayleaves, access

## Enablers and Constraints

- Previous Works
  - App based solution trialled
- Enablers & Constraints
  - Needs to cover full work flow
  - Current initial assessments linked to pole checks
  - GIS link
  - ESQCR compliant

## Involvement and Implementation

- Key Stakeholders
  - Operational staff
  - Asset management teams
  - Customers
- Target Market - DNO overhead networks
- Target Implementation - As early into ED2 as practical

# Energy Innovation Basecamp

28 February 2023  
ICC Birmingham
