# Can we streamline wayleaves renewals?

## Background

*We want to unlock the information held within our wayleaves catalogue to facilitate access to land and streamline the wayleaves renewal process helping ensure security of supply and security of our assets*

- It will allow for better communication with landowners when wayleaves need to be renewed, when assets need to be accessed for maintenance, replacement or refurbishment and will allow any gaps in consents to be identified.*

# Can we streamline wayleaves renewals?

## Enablers

- *None identified*

## Constraints

- *Managing GDPR requirements will need to be considered*

# Can we streamline wayleaves renewals?

## Involvement and Implementation

- *Network companies will be the main beneficiaries of this project.*
- *The approach developed by this project will be able to be applicable to all wayleaves held by all gas and electricity network companies and potentially other utility companies such as telecoms and water.*
