

Collaborative Streetworks Project Registration

Date of Submission

Mar 2023

Project Reference Number

IMGA221101

Project Name

Long Acre Road

Project Summary

IMGA221101

Start Date – 30/08/2022

End date – 11/11/2022

Cadent was completing medium-pressure gas mains replacement.

Due to the large-scale works of medium pressure, several collaborations have taken place in the phasing of the works.

- Strategic location for the City of Westminster.
- Covent garden underground station on the same road.

Collaboration with City of Westminster (Long Acre) – WC2E 9LH

- The City of Westminster was completing some drainage repairs outside 29 to 33.
- Cadent completing medium-pressure gas replacement works. Roughly 202m worth of replacement.

Collaboration with UKPN (Long Acre) – WC2E 9LH

- Cadent completing trial hole and CCTV 48IN cast iron main to inform for the LMPS program.
- UKPN completed the installation of a new electricity supply.
- Cadent utilized UKPN's road closure.

Collaboration with Virgin Media & Thames Water & Camden (Theobald's Road) – WC1X 8SP

- Cadent gas completed 48in cast iron gas main replacement.
- Virgin media – clearing out blockage in the carriageway.
- Thames Water constructed a chamber over the main and install gate valve.
